

# Prisma Traditional

Release Notes for 2021.115 (4th August)

## New Features

### **Finance Improved user access control of uploading client signed schedule attachments**

- Users with the "Campaign-Spot plan-View" now can upload client signed schedules.

### **Global unique transaction id is now introduced to persist data integrity (backend work)**

- We have now introduced global unique transaction id between the media management and finance management platforms to eliminate the possibility of duplicated transactions in order to persist data integrity. This work is done in the API level hence no visual impact to the end users.

## **THE FOLLOWING IS A FIXED ISSUE LIST FOR THE CURRENT RELEASE OF PRISMA TRADITIONAL:**

- 修复了 Export to Ignitia, 显示 failed, 但是 log 中无具体信息显示的问题
